

DART CONTAINER CORPORATION

December 8, 2008

Ms. Lisa Helmick
SAALFELD REDISTRIBUTION
3500 Langley Dr.
Hebron, KY 41048

Dear Ms. Helmick:

Thank you for your recent inquiry about the regulatory status of our foam polystyrene cups, bowls, food containers, and lids. I wish to assure you that these products, as marketed by the Dart Container Corporation, comply with 21CFR, Part 177, Subpart B, Section 177.1640 entitled, "Polystyrene and Rubber Modified Polystyrene" of the current Food and Drug Administration's regulations promulgated under the Food, Drug, and Cosmetic Act.

Therefore, these items may be safely used for direct and indirect food contact and packaging applications provided that good manufacturing practices are observed and that they are not contaminated or adulterated with unregulated materials.

Thank you for your continued interest in Dart cups, bowls, food containers, and lids. Please contact me if you should require any further information about the compliance of these products to FDA or any other governmental regulations.

Sincerely,

A handwritten signature in black ink, appearing to read "Brad Stevens".

Brad Stevens
