GENERAL INFO 104-107

WHAT'S NEW IN 2026

New & Improved Digital Printing Available on all drinkware items!

WHAT'S NEW:

- Expanded imprint area
- Seamless, full wrap imprint
- UV Gloss Topcoat

- 25 Piece Order Minimums
- 3-Day Production Time
- Made & Printed in the USA

American DIGITAL

The American Digital Line is a new and innovative way to get brilliant photo and graphical replication of special effects such as shadows, highlights, & dramatic contrasts. This state of the art digital 4-color process allows us to print amazing art with incredible detail. See general information (pg. 104-107) for detailed print characteristics.

American TRADITION

The American Tradition Line is great for low minimums, high quality, and quick turn around. It includes: screen, pad, hot stamping, embossing, and debossing printing methods. See general information (pg. 104-107) for detailed print characteristics.

American HI-SPEED

The American Hi-Speed Line is great for the cost conscious consumer, providing pricing for quantities of up to one million plus pieces. Multi-color imprints are very economical. Sometimes referred to as "food service grade." See general information (pg. 104-107) for detailed print characteristics.

Quick Ship Rush Service

If our standard production time is not fast enough for your client, production time can be purchased at a rate of \$125 (z) per day bought off our standard production time.

Eco-Friendly Products

BEVERAGE WRAPS & SLEEVES

pg. 38-41

- Biodegradable
- Recyclable
- Made from renewable resources
- Made & Printed in the U.S.A.

ECO-FRIENDLY PLA COLD PLASTIC CUPS

pg. 68-69

- Eco-friendly Product
- BPI Certified Compostable*
- ASTM Compliant
- Made & Printed in the U.S.A.

*BPI-certified to be 100% compostable in actively managed municipal or industrial facilities which may not be available in your area. Not suitable for backyard composting.

Made from Plants, Not from Petroleum

Made from PLA, a plant-based plastic, these cups are renewable and compostable. They're made from crops that grow back every year, and they can be composted (where facilities exist) and returned to the soil to help new plants grow. They're BPI certified compostable and ASTM compliant.

NAPKINS

pg. 2-15

- Biodegradable
- Recyclable
- Made from renewable resources
- Made from 20% recycled fibers
- Made & Printed in the U.S.A.

ECO-FRIENDLY PAPER CUPS

pg. 46-47

- Made from fully renewable resources
- Compostable in municipal and commercial composting systems
- Ecotainer® compostable lid fits 16oz and 12oz cups

*Ecotainer® hot cups are made from renewable resources, making them 100% compostable. They are perfect for greening your coffee shop, restaurant or catering event. Ecotainer® cups have an Ingeo™ moisture-proof lining made from plants instead of petrochemicals.

BIODEGRADABLE UTENSILS

Beverage Wraps — American DIGITAL

D-BWS - KRAFT

D-BWS- WHITE

D-BWS - KRAFT

D-BWL - WHITE
FULL BLEED IMPRINT

D-BWL - KRAFT

D-BWL - WHITE (BACK)
FULL BLEED IMPRINT

*** Wraps contain preprinted images from the manufacturer on the backside. Using the American Digital print method, we will be happy to overprint these images. However, they will show through, as the ink is translucent. This is not considered a defect.

D-BWL - KRAFT
Large wraps fit 12-24 oz paper cups.

D-BWL - WHITE
Large wraps fit 12-24 oz paper cups.

D-BWS - WHITE
Large wraps fit 8-9 oz paper cups.

STANDARD PACKAGING

American Digital printed items will exhibit linear banding. This is not considered a defect.

Please note that Kraft wraps will include a standard white ink underlay.

Wrap color might vary slightly within a run and is not considered a defect. Please note, wraps are designed to fit our cups and may not fit other brands.

Artwork used to print wraps is created flat. Once the wrap is placed on a cup, the image will take on the taper of the cup. This is not considered a defect.

American DIGITAL

Clear Plastic Soft Sided Cups — American DIGITAL

D-SS10-CLEAR

D-SS12-CLEAR

D-SS16-CLEAR

NEED SOFT SIDED LIDS?

We have two styles to choose from. Straw slot lids and domed lids are available. Go to page 75 to top off your drinkware.

Soft sided cups sometimes have scratches or rub marks & "shade color" variance from the molding process. These are not considered defects.

American Digital printed items will exhibit linear banding. This is not considered a defect.

Eco-Friendly PLA Cold Plastic Cups — American DIGITAL

D-CG12

D-CG12

D-CG12

D-CG16

D-CG20

MADE FROM PLANTS – NOT FROM PETROLEUM

Made from PLA, a plant-based plastic, these cups are renewable and compostable. They're made from crops that grow back every year, and they can be composted (where facilities exist) and returned to the soil to help new plants grow. They're BPI certified compostable and ASTM compliant.

☀ Store below 105°F & out of direct sunlight

NEED ECO-FRIENDLY LIDS?

Finish off your Eco-Friendly message with lids made from plants. Go to page 75 to find the right lid.

Sampling Cups — American DIGITAL

Plastic and foam cups sometimes have scratches or rub marks from the molding process. These are not considered defects.

American Digital printed items will exhibit linear banding. This is not considered a defect.

Sampling Cups — American TRADITION

Plastic and foam cups sometimes have scratches or rub marks from the molding process. These are not considered defects.

Distortion - The Martini glasses have a very limited print area. Imprints will distort due to extreme taper of cup. Squares will appear trapezoidal and circles will appear oval.

Sampling Cups — American HI-SPEED

Plastic and foam cups sometimes have scratches or rub marks from the molding process. These are not considered defects.

American DIGITAL

Low quantities, full color, & no additional run charges

- Digitally Printed with 4-Color Process
- White ink available on clear items at no additional cost**
- No extra cost for 1 side, 2 side, or wrap imprint
- Great for sampling programs
- Recyclable product
- Paper cups & Foam cups are recyclable where facilities exist
- Eco-friendly paper cups are biodegradable & compostable
- Prop 65 Compliant
- Made & Printed in the U.S.A.

Bookmarks Stock Shape — American DIGITAL

Printed borders are highly discouraged, due to variation of the actual cut line. See art template.

Note: Printed image will be affected by the texture of the Grip-It™ material.

Full bleed imprint is available on Grip-It™ material but it is not recommended for longevity due to the stresses that the product will endure while being used. Recommended cleaning is wiping with a warm damp cloth only.

10" X 8' ROLL

Sizes listed refer to boxes' inside dimensions which are represented as L" x W" x D". Inside dimensions can vary slightly depending on assembly quality.

Please note that as the amount of UV ink coverage increases, so does the likelihood of linear banding and cracking along folds & creases. It is the factory's recommendation that you limit the amount of ink coverage to achieve the best results.

All mailing boxes ship flat and unassembled from our warehouse.

See pricing and part numbers

on pages 94-99

A Closer Look at Our Mailing Boxes

Want a look inside our mailing boxes? Look no further! Below is a breakdown of the characteristics of our mailing boxes. They're perfect for sample kits, product packaging, and client gifts & rewards!

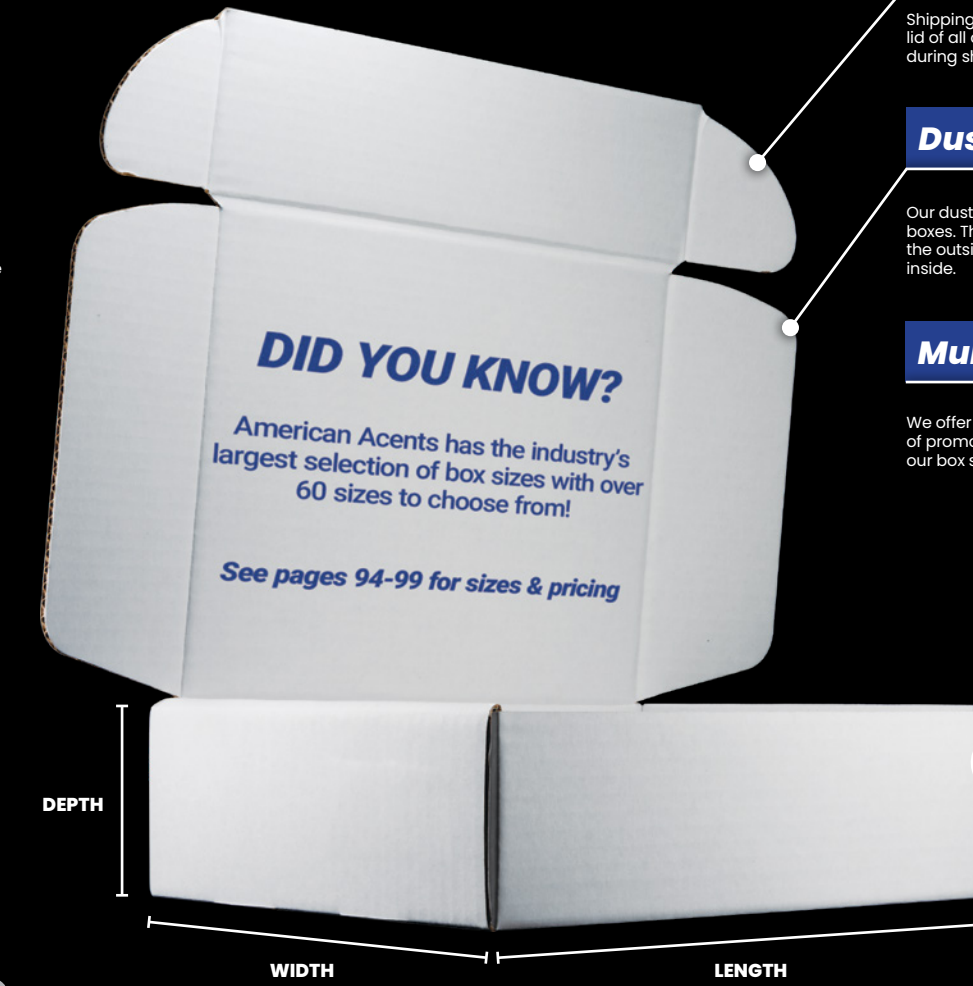

American DIGITAL

Low quantities, full color, & no additional run charges

- Digitally Printed with 4-Color Process
- Made from B-flute (1/8") corrugated board
- Sizes listed refer to boxes' inside dimensions
- L" x W" x D"
- Corrugated material is 32 ECT rated
- Interior print optional
- White surface interior & exterior
- Cherry locks & dust tabs create secure closure
- Perfect for sample kits & product packaging
- Digitally die cut; no additional fee
- Boxes ship flat & unassembled
- Simple glue & tape-free assembly
- Recyclable
- Prop 65 Compliant
- Made & Printed in the U.S.A.

PREMIUM BACKGROUNDS

Choose from our premium background images and apply them to any of our items to create a perceived higher value at no additional cost. Browse our library of images on page 103 and select the background that best complements your brand.

Cherry Locks

Shipping can be rough. Our cherry locks tuck in the lid of all of our mailing boxes, providing a secure hold during shipping & transit.

Dust Tabs

Our dust tabs tuck in the interior of all our mailing boxes. They provide an added layer of protection from the outside elements to your promotional products inside.

Multiple Sizes Available

We offer 63 different sizes of boxes to hold a large variety of promotional products. See pages 94-99 for a list of all our box sizes and part numbers.

B-FLUTE CORRUGATION

Our mailing boxes are made from a white B-flute (1/8") 32 ECT corrugated board.

Group E Mailing Boxes – 376 – 500 sq in

Low quantities, full color, & no additional run charges

- Digitally Printed with 4-Color Process
- Made from B-flute (1/8") corrugated board
- Available in sizes 376 – 500 sq in.
- Sizes listed refer to boxes' inside dimensions:
 - L" x W" x D"
- Corrugated material is 32 ECT rated
- Interior print optional
- White surface interior & exterior
- Cherry locks & dust tabs create secure closure
- Perfect for sample kits & product packaging
- Digitally die cut; no additional fee
- Boxes ship flat & unassembled
- Simple glue & tape-free assembly
- Recyclable
- Prop 65 Compliant
- Made & Printed in the U.S.A.

General Info

Contact Information

American Accents only sells through authorized promotional product distributors. You can find distributors by searching for promotional products online. Mention that you would like to order products from American Accents: ASI # 35375, UPIC: ACCENTS, PPAI #111248, SAGE #50327, DISTRIBUTOR CENTRAL #101273. Office hours are 8:30 AM to 5:00 PM ET M-F.

Artwork

Art Email: customerservice@americanaccents.com

Digital art requirements:

1. Adobe Illustrator (.AI or .EPS) files (.EPS) files need to be saved as "vector" or "editable".
2. Vector art containing fonts must be converted to curves or outlines.
3. Objects of the same color must be grouped and placed on the same layer.
4. 4-color process art should be converted to CMYK, resolution should be minimum of 300 DPI at the finished print size, saved as .tiff or .jpg files.

Clip Art: We have a variety of clip art images available for use. View available clip art under the clip art page of our website. If different images are requested, we can research and create additional clip art for an art charge of \$50 (Z) per hour, minimum charge of ½ hour.

Typesetting: If text is requested to be added or used as artwork, we offer typesetting. View available fonts on our website under the fonts page. For orders over \$200, 5 lines of text or 75 characters is free of charge. Orders under \$200 will be charged an hourly art fee of \$50 (Z) per hour, minimum charge of ½ hour.

Art Charges: In the event that acceptable camera ready art is not available, we will make our art department available to assist with re-creation of art. The fee for this service is \$50 (Z) per hour, minimum charge of ½ hour. You will be quoted on this service and will be required to submit written approval of the charges.

Artwork Retrieval: To retrieve and forward a digital copy of artwork from current or past orders there will be an artwork retrieval fee of \$30 (Z). A purchase order is required. Include the previous order number and the email address which to forward the file.

Trademarks: All copy and art submitted by the distributor will be accepted by the factory as being submitted in full compliance with all applicable laws regarding trademark, licensing, copyright, right of privacy, patent, or similar protection. Factory will be held harmless from all claims and cost arising from these issues.

Right to Promote: Trademarked, licensed, and copyrighted

logos contained in this catalog are not for sale. They are for the illustration of printing capabilities only and do not represent endorsement from their respective owners. By placing an order, distributor understands that overruns may be used for digital or print media illustrating factory's printing capabilities.

Printing Characteristics

Screen Printing: Is the printing process for smaller quantities and the highest quality image. Screened images are very sharp, crisp, and deliver good ink opacity. This process also gives the ability to overprint multiple colors to solve registration issues in some art. Multiple color logos are printed and re-registered one color at a time. The registration can vary approximately 1/8". Multiple color logos are limited to one side on cups.

Pad Printing: Is a printing method which uses a silicon pad to pick up ink from a plate and transfer the ink directly onto the item being printed. The ink transfer is thin and the opacity is lesser than screen print. It is not recommended to print on dark substrates without first putting a white base down. This would add an additional color charge to the cost of the item. Images with fine detail and halftones are best suited for this print method. On most items we are limited to 5 spot colors. Registration can vary approximately 1/8".

Digital Printing: Is an ink jet process that uses CMYK, otherwise known as 4-color process (4-CP). It is great for smaller quantities, photo replication, and replication of special effects such as shadows, highlights, and dramatic contrasts. This process can hold great detail, however is not great for Pantone® color matching. All PMS/spot color logos are converted to CMYK. Most Pantone® colors will appear different when converted to CMYK. This is not considered a defect. This conversion can be referenced with a Pantone® Color Bridge book. When choosing this print method, if you have other items ordered that will be printed via the American Traditions or American Hi-Speed print method, they will not look similar. This also is not considered a defect. American Digital printed items may be run on different machines. This can & will yield color variation throughout the product proof, initial order, reorder, or final product. This is not considered a defect.

Offset Printing: Is a method of printing in which all colors are laid in one pass, achieving tight registration. This makes offset printing an economical way of ordering larger quantities. Registration can vary up to 1/16". Quality of offset printing is sometimes less than screen print due to the high printing speeds, resulting in slurring at the top and blurring towards the bottom of the imprint area. Ink coverage is thinner than screen printing. This results in an imprint which may look transparent, especially on clear items. Dot gain in halftone is often up to 20%. Butt registration is allowed, however trapping is not. Do not expect the same clarity and opacity of print as screen printing. Maximum number of imprint colors varies between products. Specifications can be found under individual item pages in the catalog.

Emboss & Deboss Printing: Is a printing method which uses

heat and pressure to create a raised or recessed image into the product. This printing method is best suited for bold imprints without fine detail, halftones, or reversed images. Both imprint methods are available on all napkins and deboss is available on coasters. Please be aware the image is not as crisp on the Almost Linen™ napkins due to the thickness of the product.

Hot Stamp Printing: Is a printing method which uses heat and pressure to transfer foil to the item being imprinted. Due to the softness of the napkins, coasters, and wraps a certain amount of bleeding and fill in will occur on fine detail and reverse images. Logos with fine detail and reverse images are recommended to be ink printed. Please note, since foil is stamped on to the products, large solid areas may flake during use. Halftone images are not able to be hot stamped.

Printing Disclaimers

Maximum Imprint: Imprint area specifications can be found on our website under individual items. We recommend staying 20% under this area. Unless specified at the time of order, we will enlarge or reduce your image to fit within these areas. Artwork is enlarged and reduced proportionally by both width and height. Therefore, if you request maximum imprint area, only one of the dimensions may be maximized.

Wrap Imprints: There will be a gap of approximately 3/4" on screen printed cups and approximately 1/2" on offset and digital printed cups. Screen print wrap imprints are limited to one color. Offset and Digital wrap imprints are offered as multiple color.

Thin Lines: American Accents recommends using 1pt line or thicker for thin lines. Reversed lines require 2pt line or thicker (see graphic example). If recommendations are not followed, we cannot be held responsible for the outcome.

Small Text: American Accents recommends using 8pt fonts or larger for basic text. Script and reversed out fonts should be 10pt or larger (see graphic example).

Halftones & Screen Tints: Halftones will not appear as smooth when printed as viewed on the computer screen or printout, unless the output device is set to print tints at 55, 65, 85, 90, 90 LPI. (See graphic example). Tints below 20% at 65 LPI cannot be achieved and tints over 80% at 65 LPI will appear solid. Due to this coarseness of the halftones, we recommend images be outlined with a solid outline. (See graphic example). Purple = screen print napkins / Red = screen print cups / Green = offset print / Blue = pad print / Yellow gold = process print

Pantone® Matching System: Otherwise known as PMS is a system shared worldwide by the printing industry. PMS is a system that standardizes the definition of color whereby printers in separate locations can be assured of the color outcome. The use of the term PMS or PMS # in this catalog refers to Pantone® Matching System and its intellectual property.

Ink Color Match: American Accents offers free PMS matching. We take great pride in our ability to match PMS colors, however color match is only guaranteed +/- one shade on white / clear items. We cannot guarantee PMS match on colored items. If a purchase order says to use a PMS # and the color described does not match the number given, we are not responsible. We do not check to see if the PMS # provided is the color stated. Due to the nature of uncoated products, they will not exhibit the "sheen" of a coated ink color, we will use Pantone® solid uncoated colors when printing on uncoated products.

Ink Odor: Products are printed with inks that must evaporate to dry. Vapors may be trapped in the plastic packaging before they have completely dissipated. The inks are dry, but there may be a residual odor in the package from the vapors. Some colors of ink have more odor than others and the amount of ink coverage can affect the amount of odor. This odor, should it be present, is not considered a defect. It is similar to painting a room in your home. The paint will be dry, but there will be an odor that remains for several days. Should this odor be a concern, remove the products from the plastic packaging and let them air to eliminate the odor. Normally, once the products are placed for use, any odor that remains will quickly dissipate.

Ink Adhesion: Products are sold as disposable and for one time use only. Some items are stamped as residential top rack dishwasher safe. However, due to environmental variables beyond American Accents' control, the imprint is not guaranteed to stay on.

Ink Changes: American Tradition ink color changes are available in increments of 50 pieces, cost of \$15 (V) per change. American Hi-Speed ink color changes are available in

increments of 15,000 pieces, cost of \$65 (V) per change.

Second Side Imprint on Coasters: The imprint orientation is not guaranteed to match the orientation on the first side when printing on both sides of coasters.

Printing of Beverage Wraps & Sleeves: Artwork used to print wraps is created flat. Once the wrap is placed on a cup, the image will take on the taper of the cup. This is not considered a defect.

Copy Changes: Copy changes are not available.

Combined Quantity: Combined quantity pricing is not available.

Over / Under Runs: We make every effort to ship exact quantities ordered. However, over / under runs can be +/- 10%.

Premium Backgrounds: Choose from any of our images and apply them to digitally printed items to create a perceived higher value at no additional cost. The backgrounds in the catalog and website are a representation of our images and may vary from the final printed product. Background image color may vary from Reorder to Reorder or within an order if multiple presses are used. This is not considered a defect.

Stock & Custom Shapes: Art templates are available on American Accents website. These templates illustrate correct bleed and margin size. Majority of shapes require 1/8" bleed past the cut line. Factory recommends a 3/16" copy margin inside of the cut line. Printed borders are highly discouraged, due to variation of the actual cut line. Second sided imprints will show this variation to a greater extent. Customer submitted custom shaped items will need to be evaluated by our art department and may require modification in order to cut. These issues are not considered a defect.

Standard Ink Colors: If a PMS # is not available, you may choose from our standard ink colors. We offer free PMS matching, so feel free to supply a Pantone® color if available. 2X and 4 digit metallic PMS #'s are not available. 800 series colors are limited to the PMS #'s shown.* Represents the default color when more than one choice is available.

Layout: Unless otherwise specified, we will default to our standard placement (marked in red). Shadow on the napkins illustrates the ruffled edge. Cups are printed one side as a standard, however there is not an extra cost to print as 2 sided or a wrap, but must be specified.

Proofs

Proof Policy: Proofs are required for all orders, including reorders. One proof will be emailed free of charge within 24 hours of receiving good art and purchase order. Proofs are to show logo placement as well as item color, imprint color, quantity, and special packaging. Your order will not be assigned a ship date until the signed proof approval and any instructed pre-payments are returned. After receiving signed approval and pre-payment, we will e-mail an order acknowledgment showing the ship date and method. If requesting a proof without the factory's receipt of purchase order for printed items, there will be a \$30 (V) charge per item.

Proof Change: Any change, including ink color, quantity, packaging, etc. will require a new proof. Proof changes are \$10 (Z) per item.

Product Proof: Is an actual printed product. We will email a proof prior to printing the product proof. Production time for a product proof is 5 working days after email proof approval. If the product proof is approved as is, without any changes to the logo, there will not be additional setup charges for the full run of the order. American Traditions items: \$25 (V) per color, plus setup charges. American Hi-Speed items: \$125 (V) per color, plus setup charges. American Digital items: \$25 (V) per side, plus setup charges.

Product proof not available on all items.

Multiple Proofs: If requesting multiple proofs, we will do a first round with all versions; additional proofs are at \$10 (Z). When you decide which version to use, we will do a final proof which must be approved prior to production.

Setup Charges

New Orders: Setups are always charged per item, per color, per panel. Setup charges are listed on each product page and vary by print method.

Reorders: On exact reorders, new setups are not required as long as the date of the last purchase order referenced is within 1 year and is from the original distributorship. If the referenced order was placed over 1 year ago, there will be a Reorder setup charge per item, per color, per panel. Reorder setup charges are as follows: Screen Print \$20 (V), Pad Print \$20 (V), Hot Stamp \$30 (V), Deboss \$30 (V), Emboss \$50 (V), Offset Print \$30 (V), Digital Print \$20 (V).

Distributors referencing art from an order other than their own will incur new setup charges unless they supply a written release from the original distributorship.

Changes: Changes to logo size or placement will require new setups. On multi-color logos, changing any of the colors in the imprint will require new setup charges for all colors. Production Time

Production Time Policy: A ship date is not assigned and production does not begin until all written approvals and any instructed pre-payments are received.

Approvals received after 5:00 PM ET will be treated as being received the following business day for production scheduling purposes. Orders received with an event date sooner than standard production may be eligible for Quick Ship service. Please see policy below.

American Tradition Line: Purchase orders for 2,500 combined total pieces or less are 3 working days after all approvals, excluding emboss/deboss/hot stamp. Purchase orders exceeding 2,500 combined total pieces will receive standard production time of 5 working days after all approvals, up to 10,000 pieces. Over 10,000 pieces see catalog products pages for production time at each quantity break.

American Hi-Speed Line: See catalog product pages for production time at each quantity break.

American Digital Line: Purchase orders for 2,500 combined total pieces or less are 3 working days after all approvals, excluding emboss/deboss/hot stamp, cups, mailing boxes, and packing tissue paper. Purchase orders exceeding 2,500 combined total pieces will receive standard production time of 5 working days after all approvals, up to 10,000 pieces. Over 10,000 pieces see catalog products pages for production time at each quantity break. See catalog page for production time on digitally printed cups.

Quick Ship Rush Service

We offer the option to buy down production time based on production and inventory availability. If sooner than standard production time is needed, production time can be purchased at a rate of \$125 (Z) per day bought from our standard production time. If this is not acceptable, order will be given standard production time. To buy your production time, follow these easy steps.

1. Call C/S/R before sending in an order and tell them you have a Quick Ship request. C/S/R will ask for the specifics of the order.
2. Within 15 minutes C/S/R will email your answer. If approved to Quick Ship the order, you will need to follow instructions on emailed form precisely. Purchase order with all order details, art per our art requirements, shipping instructions, and any pre-payment required must be received by the instructed time, or additional charges and/or loss of production time will apply.

Shipping

Carriers: UPS, FedEx, UPS Freight, USPS.

FOB: All products are shipped FOB KY. American Accents will not be held responsible for lost, damaged or delayed products caused by shipping carriers.

Prepaid Shipping Label: If sending a prepaid shipping label, there will be a \$10 (Z) charge per label.

Split Shipments: \$10 (Z) per address and shipping method.

Offset orders are limited to case quantity for split shipments.

Third Party Billing: When shipping on any third party account other than American Accents' account, there is a charge of \$8(Z) per box. Full breakdown of 3rd party shipping charges is as follows:

- \$8 (Z) per box
- \$5 (Z) per box / over 25 boxes
- \$4 (Z) per box / over 50 boxes
- \$3 (Z) per box / over 75 boxes
- \$2 (Z) per box / over 100 boxes

USPS Shipping: \$8 (Z) handling charge per box, plus the actual cost of freight.

Freight Quotes: We can provide freight quotes for orders shipping to USA via FedEx. These are approximate and for estimation purposes only. We are unable to provide quotes for international shipments. LTL quotes available upon receipt of written requests for full pallet quantities.

Carrier Address Corrections & Intercept Fees: Any charges for address corrections or interception fees will be billed at \$25 (Z) + fees and are the responsibility of the distributor.

Product Damage Claims: All claims must be made within 5 days. Please note that one should expect a reasonable percentage of breakage on disposable plastic drinkware. If after inspection of your entire shipment you feel that a claim with the carrier is warranted, we will be happy to help by filing a claim on your behalf. All products are shipped FOB. Customer must retain packaging and contents to make them available for the carriers for inspection.

International Shipments: The distributor or end user is responsible for all duties, taxes, and fees on international shipments. A 3rd party account is required for shipping. Freight quotes cannot be provided.

In Hands Date: We reserve the right to ship via an expedited method to meet any "event date" or "in hands date" listed on a purchase order.

Packaging

Standard Packaging: On our website, standard packaging is listed for each item. This is subject to change based on specific requirements and quantities. Unimprinted item packaging may vary from standard packaging.

Custom Packaging: You may choose to package your products differently from the standard packaging. For this service, a special package charge will apply. Please note that changing packaging may require additional boxes. Below is a list of general guidelines for pricing. We recommend sending all specific packaging requirements to customer service to have the project quoted.

Custom Packaging: \$0.30 (Z) per package

Custom Labeling: \$0.30 (Z) per label

Custom Fulfillment: When custom fulfillment is requested, submit a detailed request including item numbers, quantity, and packaging details and we will be happy to quote. This is a popular choice for "Lunch and Learn" kits.

Custom Collation: When custom collation is requested, submit a detailed request including item numbers, quantity, and collation details and we will be happy to quote.

Custom Case Pack: When special boxing is requested, there is a minimum charge of \$5 (Z) per box.

Disclaimers

Pricing: Every effort is made to verify accuracy of the pricing in this catalog and maintain pricing. However, American Accents reserves the right to change prices without notice.

3rd Party Pricing & Specifications: American Accents will not be held responsible for erroneous pricing, product description or specifications found on 3rd party publications, websites, and search engines (such as ESP, SAGE, etc) Please verify the above mentioned information on the American Accents website or with Customer Service.

Product Information: Every effort is made to verify accuracy of the product information in this catalog. Due to printing and computer monitor limitations, product colors can vary. If color is important, please request random samples or order a product proof. American Accents cannot be held liable for erroneous information or variations in color.

Product Color Variation: White items will vary in "brightness" from lot to lot. Colored napkin paper is dyed to achieve its respective color, therefore each lot could appear as a slightly different shade. Napkin color could "bleed" when wet. The shade of plastic products could also vary from lot to lot. This variation in color is not considered to be a defect.

Product Count: Several times throughout the printing and

packaging process, the product count is verified. When questions arise, the actual shipping weight receipt, which is automatically generated from the shipping scale, will be used to verify product count.

Logo Placement Variation: The logo will be printed based on the placement shown on the proof. Slight variation of this placement can occur when printing. This is not considered a defect.

Scuffs and Scratches: It is the nature of our materials to scuff and scratch during stacking and shipping. Clear and dark colored material & imprints show this the most. This is not considered a defect.

Product Substitutions: American Accents reserves the right to substitute our products with one of a similar design and function. Notice may or may not be given at our discretion.

Order Change: Any change to a processed order must be in writing and is subject to a \$10 (Z) charge, in addition to any labor and material costs that have accrued.

Order Cancellation: Any cancellation to a processed order must be in writing and is subject to a \$30 (Z) charge, in addition to any labor and material costs that have accrued.

Returns: In the event that a return is requested, it must be pre-approved by American Accents. Under no circumstance will returns be accepted after 30 days from date of delivery. Orders refused by the customer through no fault of American Accents or unauthorized returned merchandise will be reshipped direct to the distributor, with re-forwarding charges being the distributor's responsibility.

Unimprinted Items: To order unimprinted items, the cost is based on American Traditions pricing, less a 10% discount. Return of unimprinted items will only be accepted if packages are unopened and will be subject to a 25% restocking fee. All freight is the responsibility of the customer. Packaging for unimprinted items may vary from standard packaging.

Order Acknowledgments: An order acknowledgment is sent for all orders within 24 hours of the order being entered. It is the distributor's responsibility to check for discrepancies, as the order will be proofed and produced accordingly. The acknowledgment also has disclaimers for all items being ordered. After proof approval is received, you will receive another acknowledgment showing the ship date and method. Again, please verify this information along with the ship to address for accuracy.

Compliance Policy: The distributor or end user must make their own determination that their use of product(s) is safe, lawful, and technically suitable for the intended applications.

QR Codes: American Accents recommends a product proof for testing functionality of QR codes before placing an order. Minimum size should be 1 inch or larger. Taper of cups can and will affect readability. QR codes work best with dark ink on light items. Quality of smart phone and choice of QR reader apps

affect the scanability.

Random Samples: We provide random samples for your convenience to show print and item quality. Samples are free of charge, however shipping is the responsibility of the distributor. Due to samples being random in nature, specific color on specific items and specific shape or premium background will not be possible. If you need to see a specific color on a specific item, please refer to pricing for product proofs.

Grip-It™ Material: Full bleed imprint is available on Grip-It™ material but it is not recommended for longevity due to the stresses that the product will endure while being used. Recommended cleaning is wiping with a warm damp cloth only.

Boxes, Table Tents, Table Luminaries: Are printed with digital UV inks and the following characteristics are not considered a defect: At folds, creases, and cut lines the ink may exhibit cracking or flaking. If you use sealing tape or labels, we recommend acrylic based adhesive as opposed to rubber based for best available adhesion or designing artwork so that desired label or tape placement is ink free.

Mailing Boxes: Sizes listed refer to boxes' inside dimensions which are represented as L" x W" x D". Inside dimensions can vary slightly depending on assembly quality. Printed registration will vary due to several factors including: artwork layout, print & cut placement relative to the corrugated material, and assembly quality. If printing full-bleed, interior/ exterior prints may be visible on the outside/inside. It is strongly recommended that you plan for these possibilities when selecting sizes and setting up artwork.

Please note that as the amount of UV ink coverage increases, so does the likelihood of linear banding and cracking along folds & creases. It is the factory's recommendation that you limit the amount of ink coverage to achieve the best results.

All mailing boxes ship flat and unassembled from our warehouse.

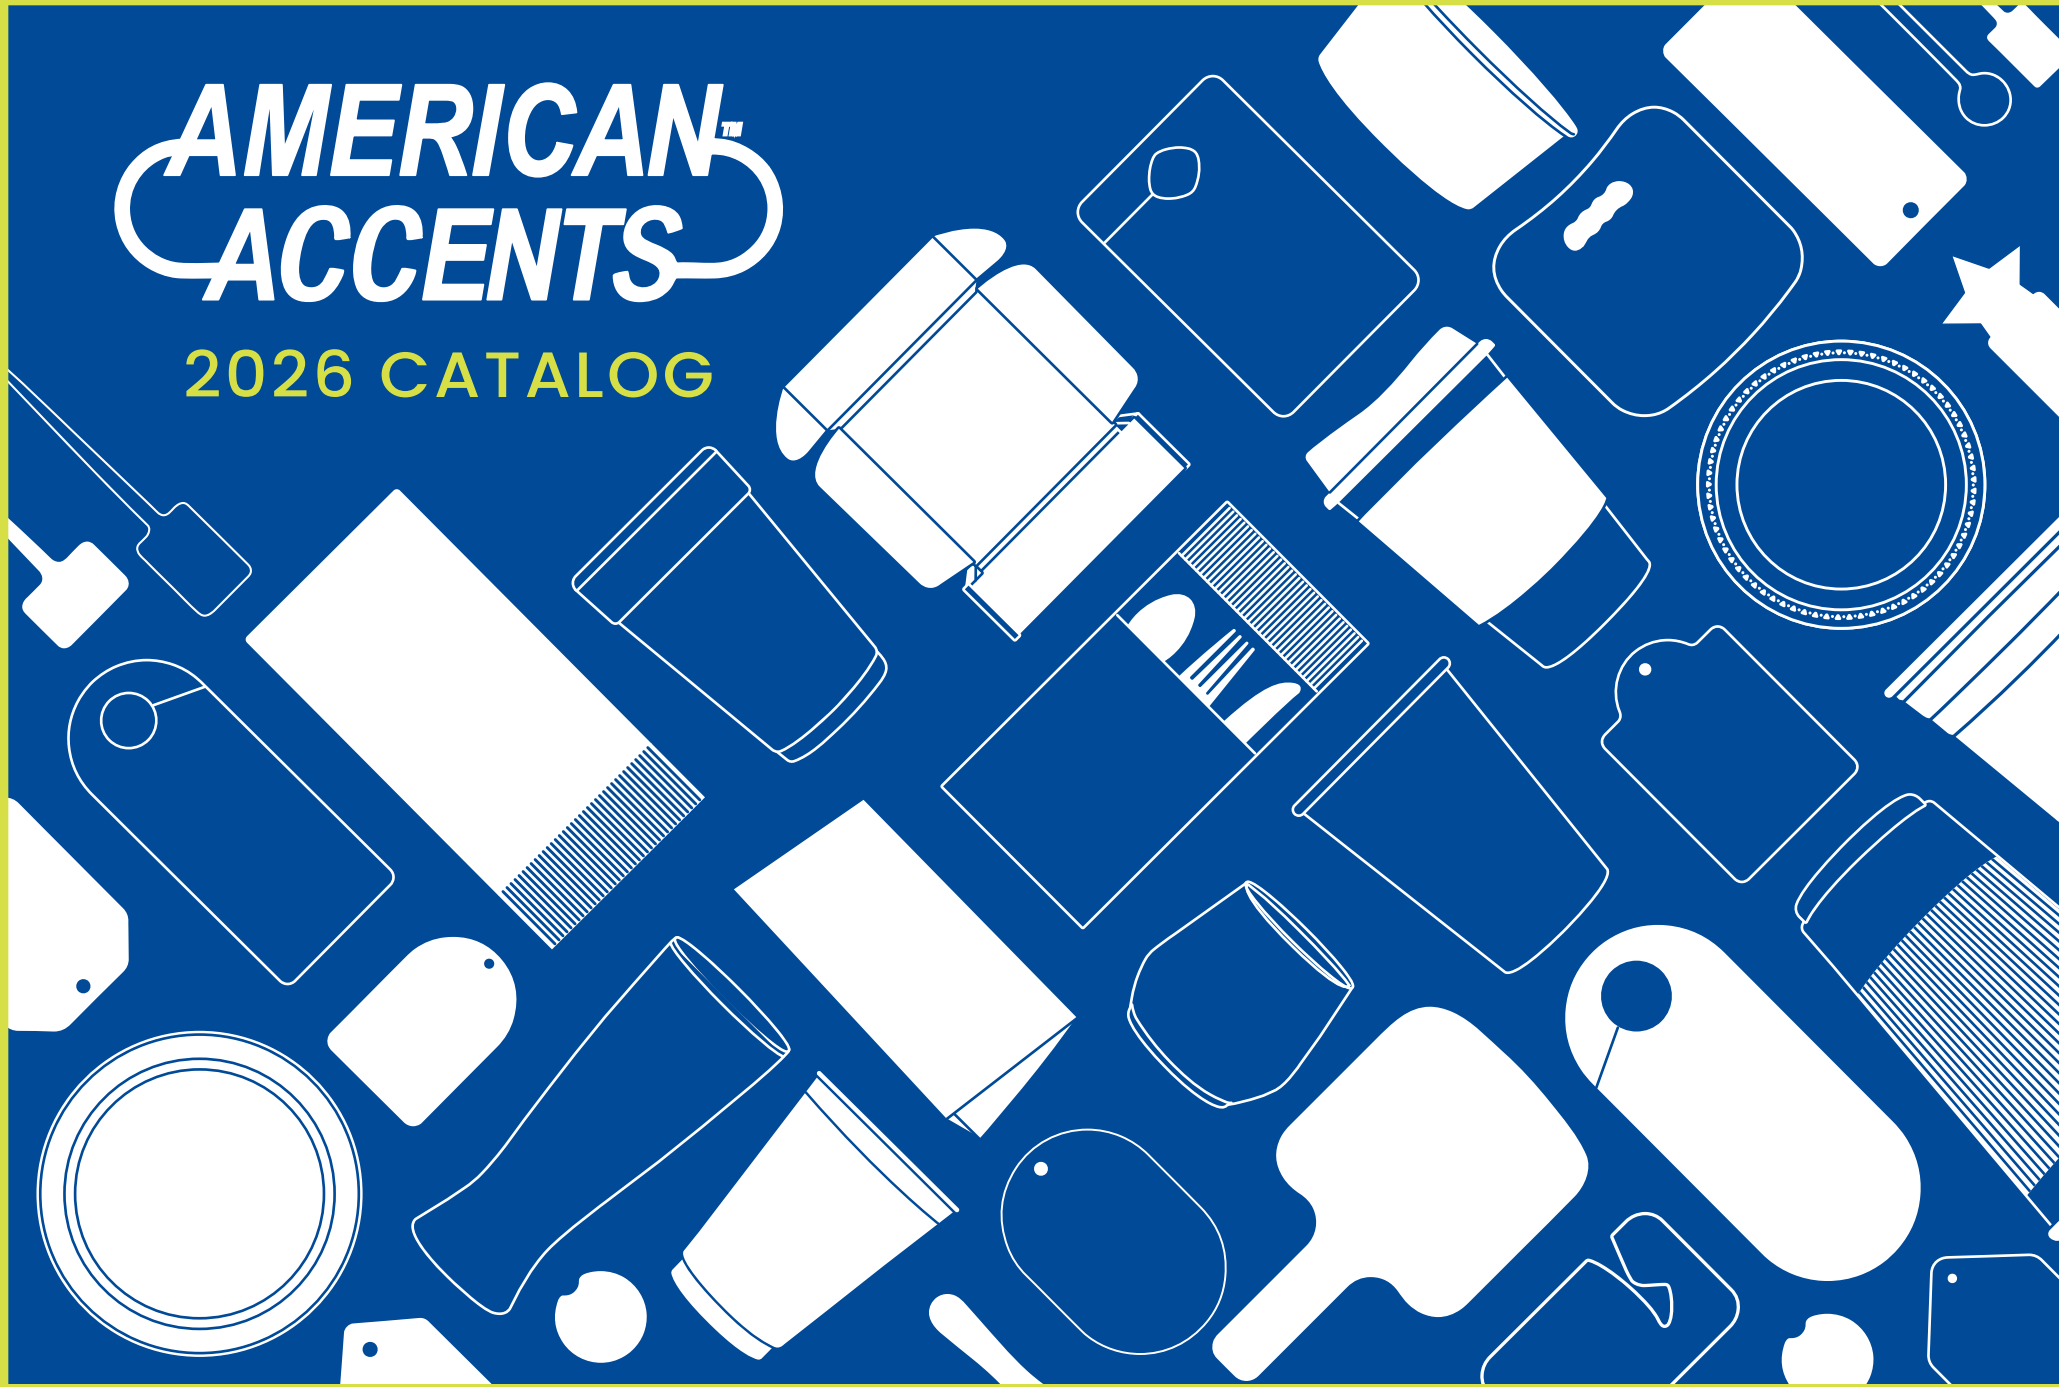

It is understood that by submitting an order to the factory, the distributor agrees to all of the factory's terms and conditions, regardless of what is on the distributor's purchase order.

AMERICAN ACCENTS only sells to authorized promotional products distributors.
